MRP ANDITO NA! PINABABANG PRESYO NG GAMOT FOR ALL!

Medicines under the Maximum Retail Price (MRP) and Frequently Asked Questions

Based on Executive Order No. 104, "Improving Access to Healthcare through Regulation of Prices in the Retail of Drugs and Medicines"

What is Maximum Retail Price (MRP)?
MRP refers to ceiling price (maximum amount a seller is allowed to charge for a product or service) at which a retailer may sell a medicine under price regulation to patients/customers.

MRP is inclusive of value-added tax (VAT) except for those currently VAT-exempted products which have asterisk (*) affixed in the Executive Order No. 104.

No medicine under the MRP shall be sold to a patient/customer at a price higher than the MRP.

What is Executive Order No. 104 series of 2020?
Through Executive Order No. 104 "Improving Access to Healthcare through Regulation of Prices in the Retail of Drugs and Medicines," the President of the Philippines imposed price regulation through Maximum Retail Price (MRP) and/or Maximum Wholesale Price (MWP) on 87 drug molecules (133 drug formulas).

What are the medicines included under MRP?
Medicines included are those for the treatment of hypertension, diabetes, chronic pain, asthma, chronic obstructive pulmonary disease (COPD), atherosclerotic cardiovascular diseases (CVDs), and breast, lung, and colorectal cancers. Some medicines recommended by patient groups and medical societies were also included such as those for chronic kidney disease (CKD), psoriasis, and depression.

The full list of medicines under MRP may be accessed on the preceding pages or at https://pharmadlv.doh.gov.ph/.

How much will the prices of these medicines be reduced?
Medicine prices will be reduced by as much as 50%.

What is Maximum Wholesale Price (MWP)?
MWP refers to ceiling price (maximum amount a seller is allowed to charge for a product or service) at which a wholesaler, distributor, or trader shall sell a medicine under price regulation to retailers. It is still exclusive of VAT.

No manufacturer, wholesaler, distributor, or trader shall sell MRP medicines to retailers at prices above the MWP.

Can I still avail of Senior Citizen (SC) and Persons with Disability (PWD) Discounts?
Yes, SC and PWD discounts shall continue to be given.

When will the MRP be effective?
The MRP and MWP shall be strictly implemented by 02 June 2020.

What shall I do if I spotted a violation of the MRP or MWP?
Kindly keep the receipt as proof of the MRP violation. Violations may be reported to the following: (1) Regional Drug Price Monitoring Officers (RDPMOs) of your respective DOH – Center for Health and Development (Link to RDPMO Directory: http://bit.ly/RDPMO); or the (2) Food and Drug Administration at telephone numbers (02) 8- 809-4390, (02) 8-807-0751 at (02) 8-807-8275.

How will MRP violations be dealt with?
Violations to EO 104, s. 2020 shall be dealt in accordance with the Cheaper Medicines Act (RA 9502) Chap 3. Sec. 19. D:

After due notice and hearing, the Secretary of the Department of Health (DOH) shall have the power to impose administrative fines against any person, manufacturer, importer, trader, distributor, wholesaler, retailer, or any other entity, in such amount as it may deem reasonable, which in no case shall be less than Fifty thousand pesos (Php 50,000.00) nor more than Five million pesos (Php 5,000,000.00) for violations of the MRP and MWP approved by the President of the Philippines.

Will there be other medicines subjected to MRP under EO 104, s. 2020?
The Department of Health initially proposed to regulate the prices of 122 drug molecules or 205 drug formulas. There are still remaining 35 drug molecules or 72 drug formulas which shall be reviewed in consultation with stakeholders, together with the Department of Trade and Industry (DTI).

Is the EO 821, s. 2009 still effective?
Yes, EO 821 s. 2009 which prescribes MRP on five (5) molecules: amlodipine, atorvastatin, azithromycin, cytarabine, and doxorubin still remains effective.

How will I find if the medicine I am using is under MRP?
Navigate your medicine from the list according to its generic name (not brand name). These are grouped according to its therapeutic classification (i.e., anti-hypertensive, anti-asthma, etc.).

You may also seek for assistance from the pharmacy attendant to determine if your medicine is covered by the MRP.

Where is the "generic name" located in the label?
The generic name (usually the chemical name of the drug) is written on the medicine's foil, blisters, bottle or box. It is written in a large, uppercase font and enclosed in a box. Example:

Where is the "generic name" located in the label?
In the prescription, the generic name of the drug is written first beside the brand name.
Example:

What can I do if my medicine is not in the MRP list? How can I access more affordable medicines?
You may ask the pharmacist/pharmacy assistant at your local pharmacy to present all available brands for a particular generic drug. It is your right to select which brand you consider affordable and should buy regardless of the brand recommended by your physician.

To all Filipinos:

Under the Executive Order No. 104, "Improving Access to Healthcare through Regulation of Prices in the Retail of Drugs and Medicines," the following medicines are under Maximum Retail Price (MRP).

NO medicine under the MRP shall be sold at prices HIGHER than those reflected herein. Senior Citizen (SC) and Persons with DIsability (PWD) discounts shall continue to be
